[extended project qualification \(EPQ\) - aqa.org.uk](#)

Video transcript. Our EPQ allows each student to embark on a largely self-directed and self-motivated project. Students must choose a topic, plan, research and develop their idea and decide on their finished product.

[php - How to remove %0A from the url - Stack Overflow](#)

The bigger question is why you would get that encoding in the first place. The country code should be just two alpha characters and looking at the above it doesn't seem like a newline would be introduced in the form, so my guess is that the newline actually exists in the database entry for Code and should be cleaned up.
