Hi, I've downloaded the lego ev3 apps for iOS, but I can't find the instructions on how to build anything more than a test robot. I've found instructions for gyro boy, the puppy and other builds on your website, which I am very please with.

Mind-storms.com - Basics

The first block is a 'start' block. The second block is a 'move steering' block with mode set to 'rotations'. The steering value is set to zero, so the robot will move in a straight line; the power is set to +50 so the robot will move

forward at 50% power, the number of rotations is set to two and the option to apply the brake after the motion
