gender's effects on interaction is crucial to determining if and how inter action contributes to the persistent reproduction of gender stratification in society over changing social structural conditions.

[The Effect of Gender on the Patterns of Classroom Interaction](#)

[Gender, Classroom Interaction, Gender-Related Classroom Discourse](#) . 1. Introduction . It has been generally assumed that gender is an affecting factor in the process of teacher/student interactions in the classroom. In other words, gender of both teachers and stu-dents influences the quality and the quantity of the interac-tions in the

classroom. The research published from the 1960s to the **Gender, Interaction, and Inequality in Organizations** People today live much of their lives in and through formal organizations. Working, learning to add and subtract, having babies, fighting wars, and making laws are organizational activities.

Gender Equality | InterAction

Since 1992, InterAction, through its Commission on the Advancement of Women, has worked to advance female empowerment and gender equality in the policy and practice of InterAction members and other agencies. InterAction promotes gender equality through organizational capacity building, foreign aid reform, resource sharing and skills building, and global outreach for innovative partnerships.

What Causes Gender Inequality? -- Robert Max Jackson

Gender inequality appears everywhere embedded in economic inequality, in the sense that a critical aspect of gender inequality involves unequal access to economic resources and positions. This relationship becomes clearer in more "advanced" societies where economic organization has become institutionally differentiated from kinship and political organization. Sometimes this unequal economic **Race, gender, class, and sexual orientation: intersecting ...**

Background. Intersectionality theory, a way of understanding social inequalities by race, gender, class, and sexuality that emphasizes their mutually constitutive natures, possesses potential to uncover and explicate previously unknown health inequalities.
