This first course in the Principles of Economics focuses on microeconomics. Microeconomics is the study of how consumers and producers behave and how they interact in markets.

[Microeconomics | Wilbert M Mtesigwa - Academia.edu](#)

Microeconomics is the study of the allocation of resources and the distribution of income as they are affected by the working of the price system and by government policies. Microeconomics deal with the determination of prices and quantities in individual markets and with the relations among these market. Thus it looks at the details of the economy. In contrast, Macroeconomics focuses on much
