First MTP Joint Replacement - AOFAS

First MTP joint replacement is used to treat severe first MTP joint arthritis. The main symptoms are pain and loss of motion at the joint between the big toe and the foot. Your orthopedic foot and ankle surgeon will examine you and take X-rays to determine the extent of your arthritis. **Understanding Metatarsophalangeal (MTP) Joint Disorders**

It's good to know, too, that the first metatarsophalangeal joint is commonly known as the big toe joint while the little toe joint is known as the fifth metatarsophalangeal joint. The first metatarsal (big toe) also articulates with (or connects with) two sesamoid bones on the plantar surface of the foot (the bottom of the foot).

The causes of metatarsophalangeal joint pain

Mechanical disorders of MTP joint: Metatarsophalangeal joint pain (also referred to as metatarsalgia) can also be due to surface misalignment of connective tissue framework, resulting in a misalignment or subluxation of joints, plate tears or destruction of joint cartilage. The misalignment of joints can also lead to swelling and even permanent destruction of joints. The disease process most MTP joint replacement for hallux rigidus: a developing field

MTP joint replacement is gaining popularity in the treatment of hallux rigidus. It provides pain relief while maintaining range of motion. There are numerous implants available on the market, each with their individual problems and merits.

Tips for Relieving MTP Joint Pain | Livestrong.com

To decrease the discomfort associated with MTP joint pain, especially hallux limitus--which is a stiff big toe--the American Academy of Orthopaedic Surgeons recommends wearing a shoe with a large toe box and minimal or no heel elevation.

Metatarsophalangeal Joint Pain - Musculoskeletal and

Metatarsophalangeal joint pain can usually be differentiated from neuralgia or neuroma of the interdigital nerves by the absence of burning, numbness, tingling, and interspace pain, but these symptoms may result from joint inflammation; if so, palpation can help with differentiation.

MTP Joint: Toe and Foot Pain - healthline.com

The metatarsophalangeal (MTP) joints are the links between your toes and the bones in the main part of your foot. When the bones, ligaments, and tendons in an MTP joint are exposed to high

Assessing alternatives to first MTP joint fusion | Lower

...

The MTP joint, by contrast, is more of a hinge joint, in which weight doesn't help compress an artificial device so that it stays in place. Soft tissue coverage of the hip and knee is also greater than at the toe joint, Bluman said, which may facilitate functional ROM.

1st MTP Joint Reconstruction or Fusion: A Guide to ...

1st MTP Joint Fusion: If the big toe knuckle joint has a lot of arthritis or a very large deformity, fusion surgery will be recommended. Fusion surgery means removing the joint so that it does not move anymore and is one solid piece of bone. Since the joint is removed, there is no movement through it. During the surgery, the cartilage will be removed, the joint placed in a good position for
