Multiple Sclerosis Therapeutics Market: Overview Of Key ...

According to the Multiple Sclerosis Foundation, 2017, this autoimmune condition affects 2.5 million people with the

global incidence of around 7 cases per 100,000 people per year. The study also states that prevalence rates varies between ethnic and geographical latitudes, ranging from 50 to 120 people per 100,000 population. North America dominates the multiple sclerosis therapeutics market owing to the high prevalence of the condition and the rising economic burden of the disease leading
