[Solar Panels & Chargers - Best Buy Canada](#)

A 4 or 5 watt solar panel charges small electronics such as simpler cell phones, MP3 players, and headlamps quickly. However, if you have more power-hungry devices such as smartphones, tablets, and laptops, you'll need a 7 to 15 watt panel to efficiently charge your electronics. Another factor to consider is size and weight. If you're constantly on the go and don't want to be bogged down with
