The End of Sex and the Future of Human Reproduction. Book Description: Within 40 years many people will stop having sex for reproduction. After IVF and preimplantation genetic diagnosis, parents will pick embryos for implantation, gestation, and birth. It will be easy, safe, lawful, and free, Henry Greely predicts. He explains the new technologies and sets out the deep ethical and legal

[The end of reproductive sex? | Prospect Magazine](#)

We could be looking at the end of sex. Speaking at a recent London meeting on the future of human reproduction, organised by the Progress Educational Trust (PET), philosopher Anna Smajdor of the University of Oslo used that arresting phrase, though she admitted that it was more of a rhetorical provocation than a prediction.
