Buzan and Lawson's The Global Transformation offers a welcome contribution to these endeavours to furnish a non-Eurocentric historical sociology of international relations. This article seeks to push their project further by re-assessing the relationship between history, theory, and contingency. In particular, it interrogates whether Buzan and Lawson's configurational approach to the

### The Global Transformation: History, Modernity and the ...

The authors argue that capitalism and industrialization brought societies into closer contact while creating new divisions and inequalities. The consequences of these nineteenth-century developments are still playing out today.

### The Global Transformation: History, Modernity and the ...

Neither existing international histories nor international relations texts sufficiently register the scale and impact of this 'global transformation', yet it is the consequences of these multiple revolutions that provide the material and ideational foundations of modern international relations. Global modernity reconstituted the mode of power that underpinned international order and opened a
