The Mountains of California, by John Muir (1894) - John ...

The Mountains of California (1894) is his book length tribute to the beauties of the Sierra. He recounts not only his own journeys by foot through the mountains, glaciers, forests, and valleys, but also the geological and natural history of the region, ranging from the history of glaciers, the patterns of tree growth, and the daily life of animals and insects. While Yosemite naturally receives great attention, Muir also expounds on less well known beauty spots.
