Future ...

User-generated content is also characterized by citizen media as opposed to the "packaged goods media" of the last century. Citizen Media is feedback and news generated by your audience. People

User-generated content - Wikipedia

User-generated content is used for a wide range of applications, including problem processing, news, entertainment, advertising, gossip and research. It is an example of the democratization of content production and the flattening of traditional media hierarchies. During the 1970s and 1980s, traditional "gatekeepers" such as newspaper editors, publishers and news shows approved all content and
