Visual Acuity Test: Purpose, Procedure, and Results

A visual acuity test is an eye exam that checks how well you see the details of a letter or symbol from a specific distance. Visual acuity refers to your ability to discern the shapes and details.

Snellen Eye Test Charts Interpretation - Precision Vision

This makes it easy to calculate the visual acuity if the chart is used at any other distance than the one for which it was designed by inserting the new test distance (in meters) and the letter size (in M-units) directly into the above formula.

Visual Acuity & The Snellen Chart - Vision and Eye Health

With the standard Snellen chart, your visual acuity will be tested at a distance of 20 feet or 6 meters. If you have vision equivalent to that of the normal average person, then your vision is 20/20 or 6/6. This means that you can see at 20 feet (or 6 meters) what a normal average person can see at 20 feet (or 6 meters).

How to Test Visual Acuity | Vision Test From Home | EyeQue

The central visual acuity test is used to: Provide a baseline visual acuity recording Determine best possible visual acuity in each eye Aid examination and diagnosis of refractive error Assess any changes in vision Measure the outcomes of cataract or LASIK surgery. Snellen Test. The Snellen test is a chart of letters or symbols, commonly used in schools and eye doctors offices. It usually includes 11 rows of capital letters, with the first line having one very large letter. Each row has

A Visual Acuity - Precision Vision

Visual acuity measurement is a good screening tool because normal visual acuity requires that all levels of the visual system function properly. The optical system of the eye must project a sharp image of the outside world onto the retina. The retina must then be able to translate this image into neural impulses. Finally, the neural impulses must travel to the brain, where they are analyzed.

What Is Visual Acuity and How Is VA Test Performed

The visual acuity test is a routine part of an eye evaluation or basic health examination, especially if there is a change in vision or an issue with vision. In children, the test is performed to evaluate for vision issues.
